## Fullstack Developer

---

### Profile:

I am a certified full-stack developer with hands-on experience in building scalable web applications using the MERN stack. My expertise spans both frontend and backend development, enabling me to create seamless, responsive, and secure user experiences. In addition, I hold certification in Java programming, with a strong foundation in object-oriented design, data structures, and backend logic. I've applied Java in real-world projects, including enterprise-grade applications and academic tools.

### Education:

Degree	Institute	percentage	passed year
